# Panel saw HM305V32TOP

## TECHNICAL PARAMETERS

- Motor power s1 5500 (/750)W
- Table height 890mm
- Outrigger table 1220x530mm
- Machine size 3200x3150x900mm
- Sawblade 250-315 (/30)mm
- Scoring sawblade Ø120x20x3.2 - 4.2/2.2mm
- Scoring unit speed 8000min-1
- Sound power level 90dB(A)
- Weight 810kg
- Packing size 2050x1110x1130mm  
3250x425x290mm
- Voltage 400 V / 50 Hz
- Sliding table 3200x360mm
- Suction port 100mm
- Max. cutting width at parallel fence 1250mm
- Sawblade speed (I): 4000 (II): 6000min-1
- Scoring unit motor power 750W
- Sawblade swivel 0-45°
- Sound pressure level 88.2 dB(A)
- EAN code 9120058379444

- ▶ Solid design.
- ▶ With large aluminium sliding table and extension arm ideal for processing large workpieces and cutting large, heavy panels to size.
- ▶ Cast iron work table (935x600mm) incl. table widening (900x500mm) and table extension (600x520mm) of solid steel construction.
- ▶ Outrigger table 1200x530mm + cross cut fence 1950-3300mm.
- ▶ Including scorer with own motor and manual height and side adjustment.
- ▶ Manually tiltable saw blade 0°-45° (via angle indicator).
- ▶ Manual height adjustment of the main saw blade and scorer.
- ▶ Included: main saw blade (TCT: Ø300x30x3.2 mm T(72)) and scoring saw blade (Ø120x20x3-3.8 T=24).

The brand HOLZMANN was born in 1995 and is now globally established and well known. The product range is continuously optimised and expanded, so that there is now a product portfolio of over 1500 products.

Our slogan - Your Job Our Tools - invites you to go through our wide range of products and machine to find the right ones for your project.

Holzmann Maschinen is an Austrian leading manufacturer of high-quality machinery. Though they have been around for centuries, they remain global players in the field of machinery and workshop equipment today.

Whether it be for woodworking, metalworking or welding, you can bet that Holzmann has a solution to suit your needs. Most of their machines are perfect for light industrial to mid-industrial users.
